

SARA VORHABEN

(832) 453-2065 • sara.vorhaben@gmail.com • LinkedIn • Website • <https://github.com/saravorhaben>

Computer Science Graduate Student with strong development experience in React, Java, and Python. Seeking full time opportunities to apply advanced technical skills, creativity, and problem solving abilities toward building impactful digital solutions.

SKILLS

Languages: Java, Python, C/C++, JavaScript, SQL, HTML/CSS

Frameworks: React, Node.js, Ruby on Rails, Tailwind

Cloud & DevOps: AWS, Google Cloud, Docker, GitHub Actions, Supabase

Developer Tools: Git, VS Code, Figma, Jira, WordPress, Make(Integromat)

EDUCATION

Texas A&M University, College Station, Texas

Masters of Computer Science

Expected Graduation: May 2027

Relevant Coursework: Human & Computer Interaction, Artificial Intelligence, Information Storage and Retrieval, Cloud Computing, and Operating Systems

Bachelor of Science in Computer Engineering Minor in Mathematics,

May 2026

Cumulative GPR: 3.71

Relevant Coursework: Software Engineering, Accessible Computing, Computer System Design, Software Security, Computer Graphics, Communication and Cryptography

EXPERIENCE

Incuentro - Software Developer Intern

May 2026 - Present

- Created an automated content pipeline in Make that generates monthly publishing calendars and branded HTML/CSS assets saving about 4 hours of company time a week
- Built a Google Apps Script with a custom sidebar UI to read and write files in Google Drive

Apps For Good - Software Developer Intern

June 2025 - August 2025

- Developed reusable & responsive React components as a member of the Theo Frontend Team
- Connected API endpoints to components and handled errors gracefully for calendar data requests

PROJECTS

Keeper Sports Stats Tracker - Personal Project

Ongoing

- Designed a live game-tracking interface in React.js supporting real-time stat entry across 14+ categories (goals, assists, steals, ejections, saves, etc.) for two teams simultaneously
- Implemented Google OAuth authentication and used protected routing using React Context

Car Rider Pickup - Senior Capstone, Backend Lead

Jan 2026 - May 2026

- Implemented pickup system that reduced the time to pick up students by 25%
- Developed the relational schema in Supabase, built the Node.js server and API layer
- Implemented authentication and role-based access for school staff and parents

Legion Men's Organization Website - Product Owner

Aug 2025 - Dec 2025

- Served as product owner for a 5-person team to design the Legion Men's Organization website
- Facilitated recurring meetings with the client, development team, and stakeholders to gather requirements and confirm deliverables met their needs
- Created and maintained a Jira project to track completion of tasks, deadlines, and sprint progress
- Wrote automated test suite and GitHub Actions pipeline that gated all merges on passing tests

ORGANIZATIONS

Society of Women Engineers - Member

Aug 2022 - Current

Eta Kappa Nu - Member

Aug 2024 - May 2026

Texas A&M Club Water Polo, Treasurer (2024-2025), Member

Aug 2022 - May 2026
